

The SPACECONNECTION INKS MULTI-YEAR AGREEMENT WITH TELESAT

Cements long-term relationship to secure services for former 5DTV customers

North Hollywood, CA May 20, 2008 – The SPACECONNECTION announced today that it has concluded a multi-year agreement with Telesat for the provision of Occasional Use (“OU”) satellite capacity on the Anik fleet of satellites. Occasional use capacity is used by broadcasters, cable programmers, business television and distance learning clients for remote collection and broad dissemination of breaking news, live sports and other content needed on a priority basis. The SPACECONNECTION is the oldest and largest OU reseller in the United States. With the recent acquisition of 5DTV, Canada’s largest OU reseller, SPACECONNECTION is now able to offer enhanced satellite and fiber options to customers throughout North America.

“By securing continued access to the Telesat fleet of satellites for our new Canadian customers, we are well positioned to serve the needs of a growing market,” stated Mike Antonovich, President and CEO of The SPACECONNECTION. “The Anik fleet provides vital communication services across Canada for a wide variety of clients and industries, and is a key element of our business strategy.” Commenting for Telesat, Len Lawson, Director, Broadcast said “We are very pleased that The SPACECONNECTION is taking advantage of the opportunities in the Canadian market and will continue to provide essential OU services to the many valued clients of 5DTV. We look forward to working closely with them as they expand the range of services and solutions they can deliver to many of our most important Canadian customers.”

The SPACECONNECTION will maintain an Ottawa sales office and hire former 5DTV account representatives to assure service continuity for the company’s new Canadian customers. The SPACECONNECTION’s Canadian clients will benefit from access to Telesat’s Anik fleet of satellites, plus additional access to a wide range of North American and international satellite inventory.

About THE SPACECONNECTION

The SPACECONNECTION, Inc. has been North America’s largest and most successful reseller of satellite space segment and related services since its founding in 1987. With an inventory of more than 20 transponders across more than 13 satellites, the SPACECONNECTION is well placed to meet the needs of customers for occasional use, fractional and full transponder capacity from every major satellite carrier for clients in the broadcast, program distribution, enterprise and government services marketplaces.
