## **SPACECONNECTION Adds New Galaxy 26 C-Band Inventory**

SPACECONNECTION has responded to the current demand for HDTV contribution services by acquiring two C-Band transponders on the Intelsat Americas Galaxy 26 satellite.

Located at 93 degrees West longitude, Galaxy 26 is a prime location for HDTV broadcast services of Sports and Syndication, providing excellent coverage of the US, Canada and Mexico.

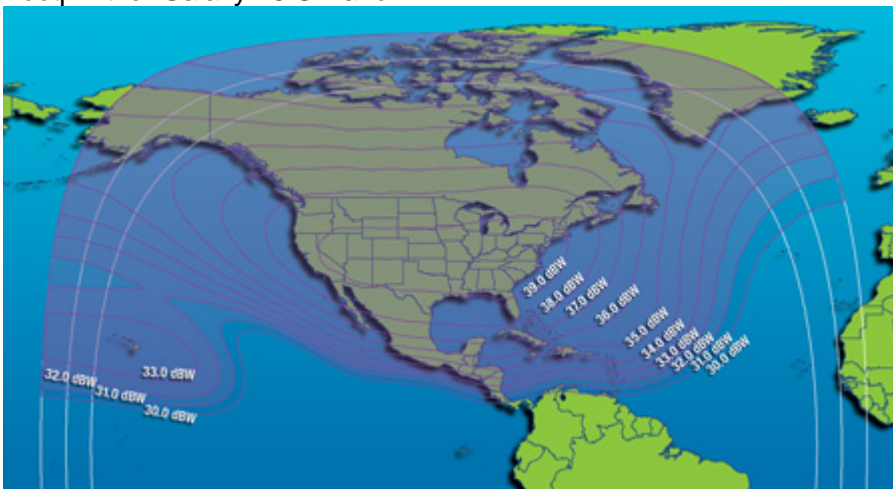

A recognized industry leader and pioneer in satellite transmission services, SPACECONNECTION continues to provide the diversity of satellites and solutions to meet your needs today and in the future.

For fast and responsive booking services, please contact our Satellite Services Department 24-hours a day at 818-754-1100 prompt #2

For special preloading rates, availability and technical information, please contact your SPACECONNECTION sales representative:
